Thud!

Chosen as the winner of the Discworld Cup by readers in 2010, Thud! is a fantastic example of the Discworld favourites, The City Watch.

'A wonderfully spun web of intrigue and comedy'.

'Pratchett is truly a master of his craft...laugh-embarrassingly-hard-out-loud funny, spookily atmospheric, and brilliantly observant of human nature. A definite must-read'.

The Waterstone's Card guide to *Terry Pratchett's Discworld*

"In a distant and second-hand set of dimensions, in an astral plane that was never meant to fly, the curling star-mists waver and part..." So began *The Colour of Magic*, Terry Pratchett's first Discworld book published in 1983. The Discworld books are a continuous history of a world not totally unlike our own, populated with wizards, dwarves, trolls, soldiers, thieves, beggars, vampires and witches. Each story follows a set of characters and explores different themes from the banking crisis to equality in the workplace; the Discworld is an ingenious work of satire. Reading all 39 in sequence can increase your enjoyment through the accumulation of the fine details of this brilliantly conceived world. Below we've selected our favourite Discworld novels.

Read me first...

The Colour of Magic

Somewhere on the frontier between thought and reality exists the Discworld, a parallel time and place which might sound and smell very much like our own, but which looks completely different. It plays by different rules and it refuses to succumb to the quaint notion that universes are ruled by pure logic.

Then try...

Tiffany Aching: Apprentice Witch

If 39 books sound like too daunting a prospect why not try the Tiffany Aching series, four books originally for younger readers that have found a strong adult following. *The Wee Free Men* is the first in the series and introduces the reader to novice witch Tiffany and her friends.

Or try...

Ankh-Morpork City Watch...

Meet the Ankh-Morpork City Watch, these who-done-it type tales follow Captain Vimes and his men as they protect the city.

Waterstone's Exclusive Gold Edition

The latest Discworld novel featuring the City Watch. It is a truth universally acknowledged that a policeman taking a holiday would barely have had time to open his suitcase before he finds his first corpse. And for Commander Sam Vimes it's not just a mere body in the wardrobe.
